Jefferson Proving Ground Collection Research Library
Index of Collection
Jefferson County Historical Society
Madison, Indiana 47250

The announcement that Jefferson Proving Ground, Madison Indiana was closing came in December of 1988. Congress gave the Army five years to close down the facility. The Army was to sell the land and dispose of all the assets. As the public and Congress became aware of the costs associated with cleaning up the Unexploded Ordnance (UXO), The Fish and Wildlife Service finally took over the management of the contaminated areas and Dean Ford purchased the loosely defined clean area of the 3,000 acres in the cantonment area. With this arrangement, the Army still retained ownership and liability of the land.

As the closure process rumbled to its inevitable end, the employees at the Proving Ground started getting rid of Paper work. One could walk through the halls of Headquarters Bldg (100) and see trash cans piled high with documents, books, SOPs, Notes, Text Books and Drawings. There were no classified documents or no Official Use Documents tossed into the piles, but it was all useful information to a person interested in history.

I called Lee Rogers of the JCHS and asked him if he would be interested in obtaining some of the files for the historical society. Needless to say that he was. I Collected all the material that I thought would be important for future generations, especially the firing and UXO information and I divided it into three piles.

Pile 1: Lee Rogers would drive out from Madison and back his car up to the mailroom door and he and I would fill up his trunk with all the material. He made about three trips to the Proving Ground.

Pile 2: I took this pile down to Pat Selig of the Jefferson County Public Library, Madison, Indiana and it was stored on the mezzanine in the Genealogy Section. In order for The Madison Public Library to make more space available, they gave 4 boxes of JPG records to the JCHS, These records were folded into the Jefferson Proving Ground Archives at the Jefferson County Historical Society and are presently stored in the Basement Archives Room (BAR), JCHS, 615 W. Third Street, Madison 47250.

Pile 3: I mailed three or four boxes up to Ruth Dorrell of the Eugene and Marilyn Glick Indiana State Historical Society.

Pile 4: The Public Affairs Officer, Dr. James Clark donated a copy of the Official History of the Jefferson Proving Ground maintained by the Army to the Historical Society and the Public Library. This history is in the (BAR) in three ring binders titled Book 1 through Thirteen.

I left the Proving ground in Feb of 1994 and finished my career at Wright – Patterson Air Force Base in Dayton, Ohio. The records lay in wait at JCHS until I retired in 2002. A couple of

years later, Doctor James Clark and I went thru and categorized the collection, threw out the junk and placed the material in acid free boxes. Ron Grimes made labels for the boxes and assigned numbers to the boxes. Space became available in the Basement Archive Room (BAR) and the collection was moved there. The Jefferson County Public Library then decided to remove the JPG collection (Pile 2) from its stacks and asked if the JCHS wanted the documents. We said yes.

That is why the numbers assigned to the boxes are contrived with some in pencil and some had the designation a, b, c, etc. Most of the things that came from the Jefferson County Public Library were Environmental Impact Analysis, which we think will be important information for land use decisions later on.

Much of this material was used as the basis for the book "Reminiscences and Reflections", an oral history of the Jefferson Proving Ground.

-----Michael S. Moore 5 Nov 2013

Method of Filing: The folders are in alphabetical order inside the cartons.

See Appendix at the end of this file for Index to Three Ring Binders of Official U. S. Army History:

Carton No. 1.

Churches and Cemeteries are sections B and C at the back of the Carton.

Jefferson Proving Ground Community, History Before J. P. G. Land Records, Farms, Churches, Bridges, Cemeteries Re-internment Program. Manuscript Collection MC-0014.

1. Bennville Bridge folder: Photos
- 2.
3. Bentley, Risk and Opal Anderson folder: Photos and Oral History from Risk Bentley.
4. Bentz, Jacob Farm folder: Hand written letter from Henry Bentz.
5. Big Creek Community folder: Address Store; Photos of Wilson Dam; Newspaper, the Plain Dealer – North Vernon, Initial Story on JPG; History of Big Creek, compiled by Virginia H. Buck, typed by Anna Laura Peddie. Photos, Harsin, Munier, Smart.
6. Big Creek Store (Stephenson's Store) picture and CD of Louis Munier Interview.
7. Big Creek Church remains folder: Photo Negatives of remaining walls.
8. Boggs, William folder: Farm photos donated by Fauna Liter.
9. Bray, Kirch, Massing folder: Letter from Francine Locke Bray, JPG Historical Questionnaire by Francis L. Bray; Transcription of interview of Marie Kirch by Francine Bray.
10. Bridge, Laughery Valley, Ripley County folder:—Bridge builder, photos donated by Jean Elliot.
11. Bridge 17, NW folder: Otter Creek Photos, Photo copies of George Miller tour.
12. Bridge 22, Munier Bridge folder: Photo

FOR IMMEDIATE RELEASE - 19-94/15 August 1994

JPG "MEMORIES" GIVEN TO HISTORICAL SOCIETY

Colonel Terry M. Weekly, Commander, U.S. Army Jefferson Proving Ground, has presented the Jefferson County Historical Society with a collection of news articles and photographs about JPG covering the years 1950-1981. The information had been maintained at one time by the Public Information Office.

Mr. Joe Carr, Director, accepted the materials on behalf of the Society.

Since the collection, posted in three oversize scrapbooks, was primarily social, political, local and human interest items rather than military history, the U.S. Army Test and Evaluation Command Historian suggested that the collection become an addition to the archives of the Jefferson County Historical Society. The articles are primarily from local papers in Jefferson and surrounding counties plus Louisville, Cincinnati and Indianapolis. Some photographs or photostats came from JPG archives or other government sources.

The contents are a snapshot of thirty-one years of JPG and the surrounding area. The topics are varied; however, many deal issues of closure, special programs for the public, employee accomplishments and re-use suggestions (1950s) to more extraordinarily accounts such as the religious recluse who "lived on fruits and nuts for over twenty days" inside the Proving Ground. (That is, until found and arrested for trespassing.)

As the installation continues its glidepath to final closure (no later than 30 September 1995) it is possible that other items may be identified for donation to local libraries and historical societies.
